Aug 21, 2012 9:50 AM PST

1. If OCLS provided an Audio studio for sound recording and editing by individuals or groups today, how likely would you be to use it?

Extremely likely	46	8%
Very likely	54	10%
Moderately likely	43	8%
Somewhat likely	79	14%
Not at all likely	329	60%
Total	551	100%

2. If OCLS provided a Video studio for creating and editing short video projects including special effects including green screen services, how likely would you be to use it?

Extremely likely	50	9%
Very likely	62	11%
Moderately likely	60	11%
Somewhat likely	100	18%
Not at all likely	278	51%
Total	550	100%

3. If OCLS provided a STEM (Science, Technology, Engineering, and Math) based Simulation classroom and lab to learn and practice the creation of an aviation plan for takeoff and land on an aircraft carrier while learning and applying Math concepts, how likely would you be to use it?

Extremely likely	69	13%
Very likely	51	9%
Moderately likely	54	10%
Somewhat likely	68	12%
Not at all likely	308	56%
Total	550	100%

4. If OCLS provided a Fabrication lab for creating prototypes of your project or product ideas through 3D design and printing or artistic projects, how likely would you be to use it?

Extremely likely	65	12%
Very likely	59	11%
Moderately likely	69	13%
Somewhat likely	90	17%
Not at all likely	262	48%
Total	545	100%

5. I wouldn't use these services but I'd be interested in:

107 Responses

6. If you were using these services, what hours would be most convenient for you? (check all that apply)

Weekday mornings 9-noon	89	22%
Weekday afternoons noon until 5	94	23%
Weekday evenings 5- 8	170	42%
Saturday 9- 6	216	53%
Sunday 1-6	155	38%
Other, please specify	23	6%

7. I would be interested in learning more about using social media to promote my business, service or product.

Yes	175	33%
No	349	67%
Total	524	100%

8. I would define my interests as:

Entrepreneur- I am interested in starting a business or improving my current business	99	22%
Hobbyist- I would like to create a special project	127	28%
Artist/Musician — I would like to create a video or audio recording	64	14%
Student — I would like to learn and practice a skill	101	23%
Innovator/learner — I just like to use technology, develop skills and learn new things	184	41%
My interests aren't described here but here's what I'd like to do...	79	18%

5. I wouldn't use these services but I'd be interested in:

Respondent #	Response
	1 robotics applications and lab
	2 Cd
	3 Development for our youth and adults of that persuasion
	4 I would encourage you to develop them. I'm sure others would use them even if I won't.
	5 Greater selection of books, even if they're e-books or audio. Please consider adding to your catalog existing offerings from free providers such as the Gutenberg project.
	6 While I only use the Digital Library and am not a good resource for your planning, I totally support STEM.
	7 Classes for seniors....ex sewing...cooking....craft making
	8 computer software development
	9 I love to read so use the library a lot but I am 73 years old and am not into the stuff you are talking about so I am not a good reference for such a program.
	10 Building a library in the Lake Nona/Moss Park area would be wonderful! I think it would be beneficial to the Medical City that is in this area as well as the thousands of students in this area.
	11 I think these are wonderful ideas for the young people and young adults. I'm retired and love getting the e-books. I would love a larger e-book library selection.
	12 Help with patent applications and legal protection of new ideas at free or low cost. I also think low cost video editing and web and graphics design concepts at an advanced level would be interesting.
	13 expansion of library delivery services and drive by drop offs

- 14 I am an employed person who just wants to read books. Don't forget your core mission statement. all of this must appeal to a younger crowd.
- 15 my husband and I are in our 80's and are enjoying many hours of reading the great selection of books at our Dr.Phillips branch of the OCLS. We also appreciate the delivery of books to our door of the books they do not have in the branch library
- 16 Auto Cad or any other design program
- 17 Expanding e-technology
- 18 Graphic design classes. Teach how to use certain design programs like Adobe and PhotoShop. Would also like access to computers that have these programs on them.
- 19 application of computers interface with other electronics,arduino,linux,osx
- 20 It seems very targeted towards students, which is a good thing. Not so for people 40+. I'd be more interested in things like book clubs, photography classes, gardening classes, etc. Perhaps basic technology classes...
- 21 I am retired in my mid 70's. My needs should in no way detract from what appears to great for the young!
- 22 Sorry but I am 82 years old. All I am really interested in using is the books I want to check, use my Kindle and my husband likes large print. North Orange does not have a great collection of anything. I feel they are sort of a step child.
- 23 I believe these useful for people interested in that field. I would be interested in larger classroom computer technology training and an immersion language class that transports students and teachers into other countries via live feed video and interaction.
- 24 The library more than satisfy our needs right now. thank you so much.
- 25 Programs geared to help senior citizens learn and use computing technology
- 26 Learning techniques. How to apply cutting edge technologies in the lives of the retired/elderly.
- 27 n/a

- 28 I use to go to the library all the time but I cannot believe how silence and consideration of others is a thing of the past. People hollering like they're in a video store, or parents sitting at tables with others to do help with their kids homework and talking loud enough to disturb four tables. Use the money to allow those who need silence that convenience.
- 29 Any computer based or video training programs.
- 30 none
- 31 seeing that these services were available to those who would utilize such a facility.
- 32 All of these services, I would use regularly since I'm training specifically for this field. I would also like to see you build a motion capture studio in addition to the above.
- 33 I myself am very unlikely to make use of the above proposed services. However, I believe they will be excellent facilities/services for those who are interested in such activities but do not have trady access to such services. These services will be a great asset to the community.
- 34 Up to date technology on geneology research.
- 35 NA
- 36 More digital downloadable books
- 37 I don't use these but I would be interested
- 38 Checking out books!
- 39 Programming classes/ instruction. More tech classes in general.
- 40 I am 80 years old and it is difficult for me to drive into downtown. That is the only reason I wouldn't use these services. Good luck
- 41 Keeping the drive through/drop off windows open for picking up and returning books at the local branches. (note: No placee to comment on auestion #8)
- 42 I am retired and would not use these services but believe that the library should continue to grow and provide services to all the community with up to date technologv.
- 43 I would not use these services, however, I would like them available for others who would.
- 44 Computer and cellphone technology.

- 45 I am retired and if I were younger and more up to date on technology, I might use these services. I am glad you are offering this to the younger generations.
- 46 a greater availability of downloadable books to my tablet.
- 47 65 years old
- 48 I am 67 years old and would not use these services, but I think it would be wonder for the young people.
- 49 geneology workshops
- 50 seeing question #3 and #4 put into reality.
- 51 I'd help pass the information about this lab to others more likely to use it (I'm a 70-year-old retiree!) But I believe having such services available to creative people who couldn't afford them otherwise is EXCELLENT!! I'm a retired public librarian from Broward County Library. For a number of years I was in charge of the Community Technology Center in our Main Library. One of my joys was helping to plan the expansion of our CTC into something like what you are planning. So I understand how excited you are about this new venture and what a wonderful addition it will be to the services you offer your patrons. Good for you!!
- 52 Learning more about how to effectively use my e reader (kindle)
- 53 I would not use these services.
- 54 Video & Audio classes, I would enroll
- 55 seeing them provided for the younger generation who would - also would love to be able to rent books on my reader - ie. Kindle devices
- 56 I would probably not use the services but my high school daughter might use them. I have been reading library Kindle books non-stop. Keep adding Kindle book selections!
- 57 DIGITAL PHOTOGRAPHY / PHOTOSHOP /
- 58 ?
- 59 a service that would allow me to convert 8 mm video tape to DVD and/or digital
- 60 nothing
- 61 I love the home delivery, and will continue to rent your books on cd and regular books (many at a time) for years to come!

- 62 A place where a class on computer programs or technology could be taught. But taught not one hour on let say Microsoft words 1 then the second class Microsoft words 2. To teach a complete class from beginning to end.
- 63 Can't think of anything else
- 64 more e-books
- 65 A silent room dedicated to study, no lab tops, or phones or talking aloud
- 66 Study and tutoring servces for my children.
- 67 But I think it would be amazing for them to be available to a younger generations who have grown in such a technical world.
- 68 STEM is VERY important and although I personally wouldn't use them, they are needed.
- 69 I would be very interested to use these services as much as God allows me to.
- 70 Having whatever you can to provide other folks in need.
- 71 not applicible
- 72 I am interested in oil and water color painting...sewing...gardening....sorry
- 73 Sorry, but I don't drive downtown. I do use my local branches almost daily.
- 74 N/A
- 75 I would also be interested in classes on how to use and develop various social media options.
- 76 More dvd movies choice including recent release.
- 77 not anything, but the library just the way it is, but that doesnt mean, those things mentioned above could not be used for students.
- 78 I'm not so much into hand's-on science as I'm more a lit and reading and theology.
- 79 Books Books Books Books Non fiction Books
- 80 learning classes like powerpoint 101, using excel, how to create flyers or websites
- 81 I love all this technology especially in this time that I am a old person and come back to the school.
- 82 more senior citizen based programs
- 83 my kid's all of the above
- 84 photo editing printing services
- 85 medical classes
- 86 Medical Technology

- 87 Something like a technology fair where patrons could experiment with current mobile devices and tablets to help them when making a decision to purchase their own device. The library could also show how its current services and ones that could be developed are used on tablet and mobile devices.
- 88 Maybe after I really stop working something will pop up??
- 89 language learning labs
- 90 Animal Husbandry
- 91 not sure
- 92 Audio Training Video Training
- 93 Any area for math and science practical application, we would use. We homeschool and a place to meet and compete against other homeschoolers for group projects would be invaluable to our community
- 94 books!! buy more books!!!
- 95 I love the computer & learning classes.
- 96 Photoshop
- 97 Crafts
- 98 In story time for toddlers at my local branch, the Edgewater library. I would also be interested in being able to request older videos that I could pick up at my local branch. I can't drive all the way over to Alafaya just to pick up an old movie that I want to see.
- 99 A STEM project to further education and to stimulate students knowledge and desire to create new ideas and projects for our future.
- 100 Expanded e-book and audiobook collections
More classes in all types of technology
- 101 all of them.
- 102 I wouldn't use these services, but my husband would probably be very interested in all of the above.
- 103 Something like these services that is geared for young children (5-10 yrs.)
- 104 KEEPING NEW BOOKS ON THE SHELVES.
- 105 n/a
- 106 on line classes in technology

107 A back to basics classroom. Teaching simple things young adults need to know how to do such as balancing a check book working out a budget, saving for college, a sewing class, cooking class, or parenting class. We have way too much technology and not enough basic skills.

6. If you were using these services, what hours would be most convenient for you? (check all that apply)

Respondent #	Response
	1 n/a
	2 holidays
	3 Will not use
	4 All available library hours.
	5 n/a
	6 retired - available anytime
	7 wed all day
	8 A
	9 n/a
	10 would not use
	11 none
	12 after school
	13 ca
	14 Outside of School hours
	15 N/A
	16 not sure
	17 no idea
	18 3:00 PM to 8:00 PM
	19 Streaming, web-based services
	20 n/a
	21 holidays

8. I would define my interests as:

Respondent #	Response
	1 learn about pottery and painting
	2 Have a place my children can go and do these types of things
	3 Support youth group at church
	4 educator
	5 Additions to existing collection
	6 Love to read.
	7 maybe some classes in better use of my computer as far as sending prints on emails.
	8 Math professor

- 9 create video and audio recordings with my grandchildren
- 10 I am a Spanish teacher and I could allow the students to create videos for a project.
- 11 Teacher- facilitate student learning
- 12 I would like for North Orange to have the latest new books available to check out, put on my Kindle and have in large print for my husband who does not like to mess around with Kindle.
- 13 video books
- 14 Old fashioned, like to read, sit quietly and enjoy a good book.
- 15 None of the above
- 16 Design and develop databases in Access. Design and develop
- 17 reading in whatever form people require to promote education.
- 18 check out and return books by live drive -in windows.
- 19 I would certainly encourage my grandchildren to make use of such services.
- 20 use this for work where I have no budget to do this
- 21 read books
- 22 read/research
- 23 spend a quiet afternoon reading a book at the library
- 24 Read
- 25 Read books - all subjects
- 26 I am retired and would be interested in things which would keep me up to date in technology.
- 27 put my photos on CD's
- 28 show my children diverse things
- 29 continue improving the fine collection we have
- 30 teacher-using these things with my students
- 31 NA
- 32 I'm retired and content to continue reading. The above options wouldn't be of interest to me.
- 33 Listening to cd books in my vehicle since I have a lengthy commute to work.
- 34 easily rent books for my kindle devices
- 35 Involvement in the STEM program
- 36 none
- 37 I am too old to be counted-these are for younger people

- 38 I'm very retired...
- 39 read books on computer, medical, religion, novels
- 40 Classes in computer software--music writing like
Finale
- 41 Come to use other opportunities in the library!
- 42 Volunteer for multiple ministries/service agencies
- 43 teacher - developing projects for students in my
classroom
- 44 For me everything is OK the way it is nowadays.
- 45 could it be used to write a book or a news letter?
- 46 Provide GED tutoring
- 47 I read a lot. I am 76. I like Origami. I like to read.
- 48 volunteer and community social activities
- 49 parent of gifted kids
- 50 parent with children interested in arts and
science
- 51 have a little time to figure it out
- 52 painting and crafts
- 53 I use the library often, for books, and check the
internet. I like history, and learning. I am not that
concerned about the latest technologies.
- 54 allow my children hands on time with various
types of technology and media.
- 55 medical coding
- 56 retire
- 57 I just enjoy reading now that I am retired.
- 58 help children learn the real life skills they need to
survive, not just the ones they need to make a lot
of money. There is more to life than money.

8. I would define my interests as:

Entrepreneur- I am interested in starting a business or improving my current business	125	35%
Hobbyist- I would like to create a special project	111	31%
Artist/Musician — I would like to create a video or audio recording	88	25%
Student — I would like to learn and practice a skill	118	33%
Innovator/learner — I just like to use technology, develop skills and learn new things	136	38%
My interests aren't described here but here's what I'd like to do...	28	8%

5. I wouldn't use these services but I'd be interested in:

Respondent #	Response
	1 maybe or maybe not? not sure at this time. But I like the idea!!!!
	2 Maybe
	3 I want to produce my own informercials with the video and green board services. Then I want to do anything with an aircraft carrier and finally, I own a website which fabricates 3D prototypes and I would love to have access to these services which I normally could never afford.
	4 Theater, more quiet rooms, learning center for children, game room, more space.
	5 More things like interest in the public like creation evolution vs. God (Jehovah) creation. Solar system, universe, astronomy, plus study of the Bible.
	6 I am sure other people would be more interested in these things than me. It's a good idea.
	7 Stations for machining parts

- 21 NA
- 22 Access to computers that have development software, graphic design tools etc. Examples include Maya (3D creation software), Adobes Creative Suite (especially Photoshop) possible an Integrated Development Environment.
- 23 Resources in software and 3D design CAD will be most important to potential users of 3D printing. It would depend on the size of the 3D printer, the quality of its output - and whether it could use a wide range of buildup materials.
- 24 Small Business Training Support
- 25 STEM would only interest me if it included general concepts as well (outside of aviation)
- 26 I'm actually interested in all of the above
- 27 Job Fairs
- 28 all of the above
- 29 I would use these services
- 30 Microsoft Apple Apps
- 31 Tutoring for my kids
- 32 Note to question # 1 - Audio studio - please put this here at West Oaks.
- 33 Note to question # 1 - Audio Studio - my daughter.
- 34 Teaching at the TIC
- 35 More time on computer.
- 36 graphic design tutorials
- 37 classes on electronics (hardware, arduino)
- 38 having elctronics parts and microcontrollers (such as the arduino) available to prototype with)
- 39 * ability to rent facilities to teach others * soldering/electronics lessons/work areas (including arduino projects, etc) * computers running advanced software (illustrator, pnotoshop. etc)
- 40 In addition to web (cloud based) technology.
- 41 Multi language learning program.
- 42 Acting
- 43 Video games age 10
- 44 I would enjoy learning all you can send my way, thank you.
- 45 all
- 46 learning how to use these things
- 47 Not filled in.

- 48 Art, music--Extracurricular activities--hobbies, enhances skills for talented learners in our community. Sell collectible items.
- 49 Everything
- 50 Just a general comment-is sound proofing of the floor being considered?(Building in a building design)
- 51 I am interested in creating videos to download to Youtube facebook, twitter and wordpress
- 52 Better privacy and less tracking of computer use
- 53 3D Printing, consulting svcs and I would use the above service
- 54 Art classes - pottery, painting, vision board, etc. Think tank - group brainstorming sessions

6. If you were using these services, what hours would be most convenient for you? (check all that apply)

Respondent #	Response
	1 All of the above, when you are making 3D models, you need a little time
	2 After business hours
	3 Monday & Tuesday - open to close
	4 Tuesday/Thursday
	5 afternoon to evenings
	6 evenings
	7 N/A
	8 Late at night when the commons are gone would be great
	9 Mornings
	10 ?
	11 every day
	12 I think it would be used all of the time
	13 Saturday and Sunday night
	14 any
	15 24/7
	16 Not quite sure about it
	17 Every day 10 a.m. - 7 p.m.
	18 9am-8pm
	19 anytime library is open
	20 DEPENDS

8. I would define my interests as:

Respondent #	Response
	1 Run a non-profit childcare

- 2 Inventor
- 3 Genealogy. Maybe a club or Library just for that.
Like the LDS library out west, but here!
- 4 Home school use
- 5 is use these studios for school related projects/homework
- 6 chemistry
- 7 To promote the services have to have more events to show the use, benefits, features of these products. I personally don't know much about them
- 8 Retired
- 9 Artist
- 10 Professional Artist/Musica/Software Engineer/Movie Producer/Computer Programmer/Video Producer/Owner President CEO Florida Film Investment Company. Need something that actually works quickly as FREE global advertising, not the usual dreg, [youtube.com/olivertwistedmovie](https://www.youtube.com/olivertwistedmovie)
- 11 Dave's Bible Notes Program
- 12 crafting, singing
- 13 ?
- 14 My kids are very interested in the before mentioned areas. OCLS will just continue to add on the options they already provide for my kids educational desires.
- 15 make film
- 16 as a teacher, I would love my students to have the opportunity to utilize these services!
- 17 Use graphic and web design programs to use for business and hobby
- 18 Acting programs
- 19 Home school Mom
